## **Performance Report for Inland Regional Center**

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Inland Regional Center (IRC) we served about 29,800 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At IRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in the following areas:

- IRC proudly reports a decrease in consumers living in state developmental center.
- IRC continues to decrease the number of children living in large facilities.
- IRC reports a decrease in adults living in large facilities.

Although IRC reports a decrease in children living in large facilities, the state average is lower. IRC will continue to work diligently to meet or strive to be lower than the state average goal.

We hope this report helps you learn more about IRC. If you have any questions or comments, please contact us!

This report is a summary. To see the complete report, go to: [www.Inlandrc.org](http://www.Inlandrc.org) or contact Inland Regional Center at (909) 890-3000.

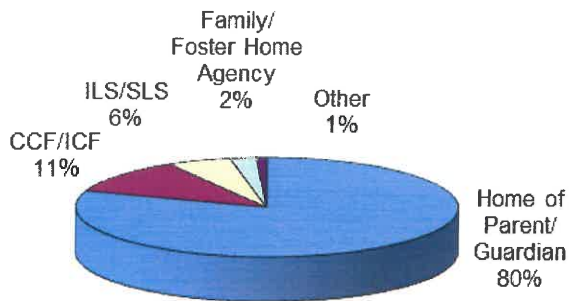

Sincerely,

Lavinia Johnson, Executive Director  
Inland Regional Center
