

The Home and Community-Based Services (HCBS) rules ensure that people with disabilities have full access to, and enjoy the benefits of, community living through long-term services and supports in the most integrated settings of their choosing. In order to assist in determining eligibility for compliance funding, providers must complete this evaluation. Both “Yes” and “No” answers require an explanation. A “No” response *could* mean a service setting is out of compliance with the HCBS rules and is potentially eligible for funding to make necessary modifications. Once this evaluation is completed, it should act as a guide for filling out the provider compliance funding concept, which is required for any provider to be eligible for compliance funding. **Completion of this evaluation is for the sole purpose of applying for compliance funding and does not take the place of future provider assessments that DDS may require to determine provider compliance with the HCBS settings rules. Only providers requesting compliance funding need to complete this evaluation.**

Federal Requirements #1-5 apply to providers of all services, including residential and non-residential settings. Federal Requirements #6-10 are additional requirements that apply only to provider-owned or controlled residential settings.

The column labeled “Guidance” contains a series of questions intended to help identify compliance or non-compliance with each requirement as it relates to the HCBS rules. While responses to these questions can help in the determination of whether or not a particular requirement is met, these responses may not be the sole factor in this determination.

More information on the HCBS rules and this form can be found at: <http://www.dds.ca.gov/HCBS/>. Questions may be directed to HCBSregs@dds.ca.gov.

ACKNOWLEDGEMENT

By checking the box below, I acknowledge that completion of this evaluation is for the sole purpose of applying for compliance funding and does not take the place of future provider assessments that DDS may require to determine provider compliance with the HCBS settings rules.

I AGREE

Existing regional center vendors may receive funding to make changes to service settings and/or programs to help them come into compliance with the HCBS rules. To be considered for funding, vendors must complete and submit this form and the provider compliance evaluation form as one packet, to the regional center with which it has primary vendorization.

Instructions:

- The concept form on the next page must be used, may not exceed three pages, and must be kept in Arial 12-point font. Submit the form in Microsoft Word.
- For providers that operate programs with several vendor numbers, one evaluation and concept form may be submitted, provided that the plan applies to all vendor numbers listed.
- The narrative should link to the federal requirement that is not currently being met. The results of the evaluation should be clearly laid out in the narrative. The narrative should describe how the funding would achieve compliance.
- Concepts should be developed with a person-centered approach, with proposed changes/activities focused on the needs and preferences of those who receive services.
- The estimated budget and timeline need not be detailed at this point but must include all major costs and benchmarks.

Examples of previously funded concepts:

- Identified the need as well as proposed a plan to provide outreach and information regarding the HCBS rules to consumers and members of their support teams
- Discussed the need for additional funds in order to effectively support consumers on a more individualized basis in overcoming barriers to community integration and employment, as appropriate
- Prioritized the preferences of consumers and utilized consumer feedback in the development of the concept
