1.2.4(a) PURCHASE OF SERVICE POLICY

Inland Regional Center will purchase those services and supports that assist individuals with developmental disabilities in achieving the greatest self-sufficiency possible and in exercising personal choices. The regional center shall secure services and supports that meet the needs of the consumer, as determined in the consumer's Individual Program Plan. Within the context of the Individual Program Plan, Inland Regional Center shall give highest preference to those services and supports which would allow minors with developmental disabilities to live with their families, adult persons with developmental disabilities to live as independently as possible in the community, and that allow all consumers to interact with persons without disabilities in positive, meaningful ways.

General Guidelines

Inland Regional Center shall identify and pursue all possible sources of funding for consumers receiving regional center services. These sources shall include, but not be limited to the following:

- 1) Governmental or other entities or programs required to provide or pay the cost of providing services, such as Medi-Cal, Medicare, the Civilian Health and Medical Program for Uniform Services, public education, and federal supplemental security income and the state supplementary program (i.e. SSI);
- 2) Private entities, to the maximum extent they are liable for the cost of services, aid, insurance, or medical assistance to the consumer.

Any person believed to have a developmental disability shall be eligible for initial intake and assessment services in the regional centers. Funds expended for the diagnosis and assessment of the developmental disability and may be limited to special diagnostic problems related to diagnosing the developmental disability.

Regional Center funds shall not be used to supplant the budget of any agency which has a legal responsibility to serve all members of the general public and is receiving public funds for providing those services. In addition, Inland Regional Center will not purchase any service that would otherwise be available from Medi-Cal, Medicare, the Civilian Health and Medical Program for Uniform Services, In-Home Support Services, California Children's Services, private insurance, or a health care service plan when a consumer or a family meets the criteria of this coverage but chooses not to pursue that coverage. ((Welfare and Institutions Code, Sections 4648 (a)(8) and 4659 (c))

Additionally, services purchased by the regional center must be cost effective and must meet the administrative requirements of the State and Inland Regional Center and must be approved for payment by Inland Regional Center in advance of the service being provided. ((Welfare and Institutions Code, Section 4512 (b))

1.2.4(a) PURCHASE OF SERVICE POLICY

Regional Centers are mandated to utilize the least costly provider who is able to accomplish the consumer's individual program plan, consistent with the particular needs of the consumer and the family. ((Welfare and Institutions Code, Section 4648 (a)(6)(d))

Families are counted on to carry out the same responsibilities for their family members with disabilities as they do for other family members. When the cost exceeds that of caring for a family member without disabilities, Inland Regional Center may provide funds for services to supplement that which parent(s)/guardian/conservator provide. Only when there are special needs related to a developmental disability, can financial assistance be provided by Inland Regional Center. ((Welfare and Institutions Code, Section 4646.4 (a)(4))

All requests for Purchase of Services will be documented in the consumer's Individual Program Plan/Individualized Family Service Plan and based on the consumer's needs. Purchase of Service will be reauthorized only when there is clear documentation that the consumer is making progress toward objectives that have been made. ((Welfare and Institutions Code, Section 4648 (a)(7))

Individual circumstances may exist which may require authorization of service purchases which are not consistent with these standards. Specific exceptions to these standards may be granted only on the following basis:

1. The Interdisciplinary Team (ID Team) must identify and document in the consumer's Individual Program Plan (IPP) or Individualized Family Service Plan (IFSP) circumstances warranting an exception to the standards.
2. The Compliance Review Team will review these service purchases before services are provided, in accordance with (Welfare and Institutions Code, Section 4646.4).

CONSUMER SERVICES

Services for Children Ages 0-36 months

Regional Centers are the state's designee for service provision for children ages 0-36 months in California's Early Start Program for Infant and Toddlers. Regional Centers are required to develop an Individualized Family Service Plan and based upon the child's needs provide services mandated by Part C of the Individuals with Disabilities Education Act. Early intervention services include, but are not limited to:

- Assistive Technology
- Durable Medical Equipment
- Audiology
- For diagnostic or evaluation purposes only: Health Services, Nursing Services and Medical Services

1.2.4(a) PURCHASE OF SERVICE POLICY

- Nutrition Services
- Occupational Therapy
- Physical Therapy
- Speech Therapy
- Psychological Services
- Service Coordination
- Family Training, Counseling and Home Visits
- Special Instruction
- Behavior Therapy
- Interpreter/Translator (As Necessary)
- Transportation and related costs
- Vision Services
- Other services may, in special circumstances, be required when those services are necessary to enable the child to receive early intervention services.

Eligible children from 0-36 months are also entitled to the full range of relevant regional center services. Generic resources such as medical insurance must be pursued when available.

Inland Regional Center may provide funds for services to supplement those which parent(s)/guardian are counted on to provide when there are special needs related to the developmental disability for infants and toddlers who meet Early Start eligibility condition criteria and/or have an established risk of being developmentally delayed. Using the above guidelines, services may be purchased for eligible children from 0-36 months based on the needs and preferences of the consumer's family, taking into consideration a range of service options proposed by the Individual Family Service Plan Team, the effectiveness of each option in meeting the Individual Family Service Plan goals, and the cost effectiveness of each option.

Infant Education Programs

Inland Regional Center will utilize the generic services available from the school district for infant programs and will refer parents to those infant education programs offered by the schools. If the infant program provided by the school district does not meet the needs of the individual consumer, the Infant Services Coordinator may support the parents in addressing the issue through the Individual Family Service Plan.

Occupational/Physical Therapy

Occupational therapy may be purchased after the Interdisciplinary Team has developed an Individual Family Service Plan with the participation of regional center staff, and the parent/authorized representative. The efficiency of the program and continual need for the services is evaluated at least every four (4) but not more than six (6) months by the Interdisciplinary Team.

1.2.4(a) PURCHASE OF SERVICE POLICY

Speech Therapy

Speech therapy may be purchased after the Interdisciplinary Team has developed Individual Family Service Plan with the participation of regional center staff, and the parent/authorized representative. The efficiency of the program and continual need for the services is evaluated at least every four (4) but not more than six (6) months by the Interdisciplinary Team.

Services Available to All Consumers

The Individual Program Plan team planning and decision process will identify supports and services for each consumer to achieve the greatest self-sufficiency possible based on the needs and preferences of the consumer, the consumer's representative or the consumer's family, taking into consideration a range of service options proposed by the Individual Family Service Plan / Individual Program Plan Team, the effectiveness of each option in meeting the Individual Family Service Plan / Individual Program Plan goals, and the cost effectiveness of each option.

These services may include, but not be limited to:

Behavior Modification Services

Behavior modification services are intended to provide interventions that result in changes that will assist the consumer to adapt or alter the occurrence or performance of his or her behavior.

Behavior modification services may be provided for children and adults on a case by case basis as determined by the Interdisciplinary Team process.

Applied Behavioral Analysis (ABA) services may be authorized for those consumers with intensive behavioral intervention needs, and parent(s)/guardian are required to participate in the training. Funding of these services by Inland Regional Center will not exceed 40 hours per week across all settings (school and home) and will be re-evaluated every six (6) months.

Insurance Co-Payment Reimbursements

Insurance deductible or co-payment reimbursements are required for services such as Applied Behavioral Analysis, Speech Therapy, Occupational Therapy and Physical Therapy. When a service has a deductible or co-payment, the payment will be reimbursed with the following process:

The vendor will request the deductible or co-payment from the family at the time of service. The family will pay the deductible or co-payment to the vendor. The family will send the Explanation of Benefit (EOB), via an email to the Inland Regional Center Behavior Specialist Technician. In the body of the email, they will provide the name and Unique Client Identifier (UCI). IRC will reimburse the vendor once invoiced and according to the patient's responsibility indicated on the EOB. The vendor will then in turn reimburse the family.

1.2.4(a) PURCHASE OF SERVICE POLICY

Conferences

Parents, legal guardians, conservator or surrogates are eligible for reimbursement by Inland Regional Center. Conferences reimbursement is up to \$500.00 per family, per fiscal year. All requests must be supported by an Individual Program Plan objective for conferences.

Day Program for Adults

After graduating or receiving a certificate of completion from public or private education, consumers will be supported in determining the program services of their choice. Preference is given to those program services which constitute the least restrictive option, emphasize community integration and critical skills development, in addition, preference is given to the closest, most appropriate and cost-effective program that meets the consumer's needs. Funding through the Department of Rehabilitation, enrollment in Adult Education and Regional Occupational Programs may be utilized to maximize consumer integration in the community.

Diapers/Incontinence Supplies

Diapers for a consumer who is three years of age or older may be approved when the family can demonstrate financial need and when doing so will enable the child to remain in the family home. The incontinence supplies purchased must be the same type of incontinence supplies available to consumers through Medi-Cal. Private and generic sources first must be exhausted.

Medical and Diagnostic Requests

The regional center may purchase incidental medical or dental services after private and generic sources have been exhausted and will consider using the most cost-effective services first. All requests must be accompanied by a copy of the denial from Medi-Cal or the consumer's health/medical private insurance.

Inland Regional Center is unable to purchase the following medical and diagnostic services:

- Experimental treatments
- Therapeutic services or devices that have not been clinically determined or scientifically proven to be effective, or safe, or for which risks, and complications are unknown
- Medical or diagnostic evaluations not related to the developmental disability
- Psychological evaluations that are not used to determine eligibility

Mobility Training

Mobility training will be purchased only for travel between the adult consumer's home and primary day activity (day program, trade school or work). The Interdisciplinary Team will

1.2.4(a) PURCHASE OF SERVICE POLICY

determine if the consumer's residence and primary day program are within a reasonable walking distance of a bus line.

There must be consensus between the Consumer Services Coordinator, consumer, and parent/guardian/care provider that once mobility training has been successfully completed, the public bus system will be used to access the consumer's primary day activity.

Occupational/Physical Therapy

Occupational/Physical therapy is a program intended to assist consumers who evidence a significant delay in gross and fine motor and self-help skills and who could benefit from the service. Purchase of occupational therapy is offered to consumers who have a demonstrated need, and who do not qualify for such services through generic resources such as Medi-Cal, California Children's Services (CCS), privately funded resources or family health/medical insurance.

Out-of-Home Placement

Inland Regional Center will explore all available resources prior to considering the first time placement of minors. Parental financial support may be required through the Parental Fee Program process.

Adult consumers who desire to move away from the family home will be assisted in selecting the setting that will best match their needs. These may include licensed homes by either the Department of Social Services Community Care or Department of Public Health. Consumers wishing to reside independently in their own home or apartment may benefit from Supported Living Services.

Respite Services

Respite care is defined as temporary and intermittent care provided for short periods of time (1) in the consumer's own home or (2) out-of-home respite may also occur at an approved residential facility or setting to support family members in keeping consumers in the home. It is intended to relieve family members of the demanding responsibility of caring for the consumer by providing care and supervision to ensure consumer's safety in the absence of family members. When the family has authorization for ongoing in-home respite and wants a one-time out-of-home respite authorization, the hours of in-home respite may be modified accordingly.

Respite services authorized for minor consumers are subject to California's Family Cost Participation Program (FCPP). Families have 30 days from the date they are notified of the cost participation amount to ask for a review of the rate. As allowed by California Code of

1.2.4(a) PURCHASE OF SERVICE POLICY

Regulations Section 56265, the Regional Center's Executive Director or [designee] may adjust the level of cost participation.

Respite hours may be authorized for an individual with medical care needs pending generic funding e.g., Early Periodic Screening, Diagnosis and Training (EPSDT) or In-Home Operations Nursing Facility (NF) Waiver Program. The regional center will only consider services such as In-Home Supportive Services as a generic resource when the approved services meet the respite need as identified in the consumer's individual program plan or individualized family service plan.

Children between 0-21 years of age may receive EPSDT funding support. Adults ages 21 years plus may receive NF Waiver funding support.

A regional center may only purchase respite services when the care and supervision needs of a consumer exceed that of an individual of the same age without developmental disabilities.

Special Equipment: Durable and Non-Durable Miscellaneous Items and Home Modifications

Special equipment may be purchased by Inland Regional Center after the Interdisciplinary Team has identified the need during the Individual Program Plan meeting with the participation of the consumer, parent/authorized representative, regional center, other program staff and care provider, if appropriate. The equipment purchased must encourage independence, inclusion and empowerment. If the consumer is a child, a referral must be made to California Children Services (CCS) for assessment/evaluation of need and potential funding before Inland Regional Center may purchase such equipment. These assessments should include options that are most appropriate to meet the needs of the consumer and family.

Other resources for special equipment may include the Department of Rehabilitation, Medi Cal, private insurance, and other community resources depending on the age of the consumer.

Speech Therapy, Evaluation and Therapy for Assistive Technology Evaluation

Speech therapy is a program intended to assist consumers who evidence a significant delay in receptive/expressive language skills and who could benefit from the service. Purchase of speech therapy is offered to consumers who have a demonstrated need, and who do not qualify for such services through generic resources such as Medi-Cal, privately funded resources or family health/medical insurance.

Speech Evaluation and Therapy for Assistive Technology Evaluation is provided by the respective school districts. Other sources such as the schools, private insurance and other generic agencies will be researched. IRC may provide an assistive Technology Evaluation to determine appropriate equipment for in-home use as determined by the Interdisciplinary Team.

1.2.4(a) PURCHASE OF SERVICE POLICY

Supported Living Services

Inland Regional Center may purchase services that promote learning independent living skills for adult consumers through training. Supported Living Skills (SLS) training is provided in the consumer's own home or apartment and is a comprehensive training program directed toward assisting an individual to move into or remain in self sustaining or supported living situations in the community. Development of circles of support is a component of independent living skills training services. These services should allow the individual to make fundamental life decisions while supporting and facilitating the consumer in dealing with the consequences of those decisions and the choice to control the character and appearance of their home.

Supported Living Services shall include:

a. Training and Habilitation - Individual Service Plan goals are intended to increase the consumer's desire and ability to meet his/her needs without assistance, establish and maintain age appropriate relationships, and increase participation in the community.

b. Personal Support – Individual Service Plan goals address assistance with common daily living and routine household activities due to the nature or severity of the consumer's physical or developmental challenges. When the consumer is unable to demonstrate reasonable success in their training and habilitation goals and no generic resources are available to meet consumer needs, supports may be addressed in the Individual Service Plan as maintenance goals through Personal Support.

Decisions are based upon the recognition of the consumer's right to make choices regarding the conditions under which he/she will live. Consumers shall be afforded the dignity of risk, with basic health and safety issues discussed and resolved by the Interdisciplinary Team. In keeping with the Lanterman Act, the purchase of this service shall be based upon demonstrated progress towards meeting the goals and objectives in the Individual Program Plan and Individual Service Plan.

Transportation

In considering the purchase of transportation services for consumers, Inland Regional Center will explore all transportation services from the least restrictive to the most restrictive method of transportation.

In addition, Inland Regional Center may purchase transportation services that will facilitate the services identified in the consumer's Individual Program Plan only when generic resources are unable to provide the transportation on a routine basis for the consumer or are not assigned by regulation to other entities (i.e. residential operator's responsibility to transport residents to medical and recreational opportunities).

1.2.4(a) PURCHASE OF SERVICE POLICY

Inland Regional Center will only fund transportation, when required from the consumer's residence to the lowest-cost vendor that provides the service that meets the consumer's needs. The cost of a vendor shall be determined by combining the vendor's program costs and the costs to transport a consumer from the consumer's residence to the vendor. (Welfare and Institutions Code, Section 4648.35)

When a choice is available between public and private transportation service or voucher, public transportation will be purchased as it is more cost effective and allows consumers to interact with the general public.

A regional center may fund transportation services for a minor child living in the family residence to meet needs identified in the Individual Program Plan, only if the family of the child provides sufficient written documentation to the regional center to demonstrate that it is unable to provide transportation for the child. Inland Regional Center will not purchase transportation services to enable school-aged children to receive educational services.

Exceptions

Individual circumstances may exist which may require authorization of service purchases by Inland Regional Center which are not consistent with these standards. Specific exceptions to these standards may be granted:

1. The Interdisciplinary Team identifies and documents in the consumer's Individual Program Plan or Individual Family Service Plan circumstances warranting an exception to the standards.
2. Any applicant for or recipient of services, or authorized representative of the applicant or recipient, who is dissatisfied with any decision or action of the service agency which he or she believes to be illegal, discriminatory, or not in the recipient's or applicant's best interests, shall, upon filing a request within 30 days after notification of the decision or action complained of, be afforded an opportunity for a fair hearing ((Welfare and Institutions Code, Section 4710.5 (a)).
3. Each consumer or any representative acting on behalf of any consumer or consumers, who believes that any right to which a consumer is entitled has been abused, punitively withheld, or improperly or unreasonably denied by a regional center, developmental center, or service provider, may pursue a complaint pursuant to the Welfare and Institutions Code, Section 4731.

Disputes concerning the nature, scope, or amount of services and supports that should be included in an Individual Program Plan should be addressed through the Fair Hearing process as described in item #2 of this section (Welfare and Institutions Code, Sections 4700-4730).

1.2.4(a) PURCHASE OF SERVICE POLICY

Policy adopted by Inland Counties Regional Center, Inc. Board of Trustees on February 13, 2012, pending approval from the Department of Developmental Services.

Approved by the Department of Developmental Services on May 23, 2012.

Board Approved on November 13, 2017

Board Approved on March 12, 2018 pending approval from DDS

Board Approved on May 14, 2018
