

To the IRC Vendor Community providing services via the Alternative Service Delivery Model:

Please see the attached platform in order to get your Alternative Service Delivery (ASD) rate. Input the Tax Identification Number into the portal and you will be taken to a vendor specific page to obtain your ASD rates, as determined by the Department of Developmental Services (DDS) and their consulting agency.

You can review the rate and if there are questions, please read the DDS letter dated December 2, 2020; for the links to a tutorial on how they determined the rate. If you have an issue with the rate, you must submit a detailed response using the Enclosure A attached in the letter. IRC will not be re-calculating vendor rates or answering any rate related questions. We will take the enclosures and any rate related questions via an email address: asdquestions@inlandrc.org. We will then submit to DDS, via their link on the December 2, 2020 letter.

If you have a general question, not rate related, you can also use the aforementioned email address. If you require your rate methodology for a particular vendor number, please make the specific request and we will work on sending the information. For the number of vendors and the sheer amount of data, we have not attached the specific methodology for each vendor.

Finally, we have uploaded only the information for those vendors that have self-certified that they are ASD providers. For the transportation vendors, your rates are still being determined but will be sent to you, using the same platform, once we get those rates. Thank you all for your attention to the ASD rates.

Vince Toms

Director of Community Services
