Customized Employment 2.0: Principles to Practice

**Join us
for 2 days
of fun & learning!**

Throughout the country, Customized Employment is proving to be an effective way to assist individuals with more significant disabilities obtain employment. To successfully use CE methods, job developers must reframe how they approach and partner with employers.

- Why should businesses consider customizing a job?
- How do we identify opportunities, market candidates and promote program services in a business-centered way?
- How can we work with employers to identify ways for job seekers with disabilities to add value to their business?

Find out by joining us for this no-cost training where we will share examples of CE in action and discuss ways to identify business needs and negotiate customized positions for job seekers with disabilities.
