

FY 2023-2024 Approved Community Placement Plan (CPP) and Community Resource Development Plan (CRDP) Projects

Service Type	Service Description	Award Amount
Crisis Support Services	Funding for a Community-Based Crisis Response Team to provide on demand support to individuals who are experiencing an mental health and/or behavioral emergency, where a certified and trained response team would be able to assist and de-escalate.	\$400,000.00
Multi-Family Housing	IRC will work with non-profit developer Chelsea Investment Corporation to develop and construct a new Multi-Family Affordable Housing development Project in Palm Desert. This project will secure 10 affordable housing units reserved and dedicated for IRC consumers. This project will be built neighboring IRC service provider Desert Arc. Construction projected to begin 12/2024. This is a unique opportunity right next to a popular and growing Desert Arc that offers a wide range of services with a proven successful developer as seen by previous projects in recent years. As mentioned, Affordable Housing is desperately needed in our community. This service would advantageously benefit our consumers that attend or receive services from Desert Arc.	\$1,500,000.00
Development of an Inclusive Survey for Deaf plus IRC consumers	IRC will collaborate with multiple regional centers (RCOC, NLARC & ELARC) to assist in creating a more inclusive survey which could potentially be used statewide to identify service options for IRC consumers within the Deaf and Hard of Hearing (D/HH) and Deaf Plus population. IRC will utilize a certified interpreter team (Tri Ling/CDI/CART) to hold multiple 2-hour focus groups with IRC consumers, gather and analyze data, and create an inclusive survey process. The purpose of this service is to get inclusive statistics for the Deaf plus community, as the NCI survey has not been successful for these individuals. Funding will also provide focus group attendees with a monetary incentive for IRC consumers to attend a session. The focal point will be on meeting the needs of IRC’s Deaf plus community.	\$300,000.00
