

Attention all Day Program Vendors:

There is an exciting new program being offered called **Coordinated Career Pathways (CCP)**. It is available for clients transitioning out of Sub-Minimum Wage (SMW) and can be provided to clients who are two years from exiting secondary education. The intent of the program is to assist vendors and clients in securing Competitive Integrated Employment.

The program providers must have completed a course or training in person centered thinking and hold either an Association of Community Rehabilitation Educators (ACRE) certificate or an Association of People Supporting Employment First (APSE) Employment Support Professionals (CESP) credential.

Please read all attachments and if you have any questions or if you are interested in applying you can connect with a Resource Development Team member at [NRSPO@inlandrc.org](mailto:NRSPO@inlandrc.org).
