OUR MISSION

Remarkable & Centered Supports mission is to provide services to individuals with developmental disabilities and their families based on language and cultural needs.

We help each person find the ideal balance of **Important TO and Important FOR**, by using Person-Centered Practices and Skills. **Important TO** refers to what matters to the person the most in their own words. Such as what makes a person happy, content, feel accomplished, and the relationships that they want to build. **Important FOR** focuses on health and safety, and what that means to each person on their own terms. **Important FOR**, also supports the person in being a valued member of their communities. Our goal is to help each person create a life they love and exercise positive control in everyday situations.

Our focus is to match people receiving services with bilingual staff that understand each person's cultural background and language needs.

WHAT WE DO

Coordinated Family Supports

CFS is provided while the person resides in the home of their parents or other family member's home. CFS will provide training and support services necessary for an individual, their family, and other providers to foster quality life for each person receiving services.

- Provide support and training for the individual and their family in navigating comprehensive services.

Coordinated Family Supports

- Supports are tailored to meet their unique needs, create pathways to overcoming barriers to access generic and other resources.
- Identifying and providing supports necessary to successfully reside in the family home.
- Providing additional information or resources on the individual's diagnosis and identified supports.
- Coordinating consistency in training across providers specific to the needs of the individual and their family.
- Assisting with scheduling of service delivery including medical and other appointments.
- Identifying transportation options or services.
- Identifying backup providers/supports and providing those backup supports when the plan fails.
- Providing futures planning for the individual, including those living with aging caregivers.
- Providing training to the individual which maximizes their independence.
